President's Message

Diana Shelton, President

It's summer and hot and everyone's taking vacation... except you and me of course.

There are lots of things happening around AITP. Region 1 is hosting a conference July 24-25 in Las Vegas; then Region 7 is having a conference in Charleston, SC, September 13 and don't forget about AITP's National Conference, October 23-25 in St. Louis, hosted by Region 5.

And oh yeah, Region 2's conference hosted by Honolulu is September 11-12. Lot's of opportunity to hear some great speakers, increase or refresh your knowledge and catch up on some friends that you may have lost touch with. If you can, take advantage of these excellent venues.

Our Region 2 Fall Conference September 11-12 at the Moana Hotel is shaping up. Take a look at the kinds of topics will be discussed. Two conference tracks will be available on Thursday, September 11 and Friday, September 12. Topics include: VoIP, Open Source Software, .Net vs. J2EE, Free-Space optics, Wireless Trends & Security, Regulatory environment's impact on IT (GLB/HIPAA/Sarbanes-Oxley), and more...

Early bird price for the conference – both days, including lunch and reception both days is only \$125. Sign up before August 15 to get this price.

Can't attend both days? \$75 gets you one conference day (Thursday or Friday), lunch and closing reception for that day if you sign up before August 15.

Can't do the conference? Come to lunch; either day \$25; just sign up.

If you would like to be involved in this conference at any level or being a speaker, please let me know.

Manuel C. Menendez, Executive Director Office Of Economic Development, City and County of Honolulu was our speaker in June and I encourage folks from other organizations to invite Manny to your meeting. What a great presentation! We certainly learned a great many things.

Technology Solutions Today Conference

Once again, AITP Honolulu Chapter is teaming up with HTCA (Hawaii Telecommunications Association) to host the 2nd annual Technology Solutions Today Conference on September 11 and 12, 2003 at the Sheraton Moana Hotel.

A vision team comprised of some of the top IT professionals in the State met recently to help the conference committee identify what the hot topics are in the industry today. Those topics will provide the ground work for the conference.

In addition, the conference this year will also include participation from the AITP Region 2 as part of their annual conference and board meeting. Region 2 is comprised of chapters from Alaska, the Pacific North West, Northern California, and Idaho.

Although it's early yet, volunteers will soon be needed to assist with a number of committees including registration, marketing, and sponsorships. If you are interested in helping out, please contact Diana Shelton at 522-4427 or send an email to: DShelton@STRAUB.NET.

Tareq is President, CEO, and a founder of Landmark Networks, a early-stage company developing wireless networking products.

The mass deployment of Wi-Fi technologies will have a significant impact on how people interact with their computing environments. The wireless revolution in the first decade of 2000 has the potential to have the same impact on computing as the Internet had in the 1990's. Landmark is developing revolutionary methods to accelerate the deployment of Wi-Fi to allow the realization of ubiquitous Wi-Fi services - any time, any place.
