President's Message

Brian Malanaphy, President

If you missed April's luncheon meeting, you missed a great presentation by Duke Bainum. Duke reviewed his approach and plans for changes when he becomes our next Mayor. Most importantly, he promised to focus on addressing the basic needs of the city, including fixing the potholes (one of my pet peeves - am I the only one that's hit the same pothole multiple times? You know the one on Nimitz, in the right turn lane as you're going to Home Depot or Costco). Duke took the time to thoroughly answer all audience questions, which made for a very informative and meaningful luncheon.

Thanks goes to a former AITP President Guy Inouye, of the NaSPA (Network and Systems Professionals Association), for helping to schedule the luncheon.

This month at our next luncheon, on May 19th at the Ala Moana Hotel, we are pleased to have Gartner Analyst Phillip Redman. Phil is a research vice president in Gartner Research and he focuses on mobile communications services and products for cellular/PCS, mobile satellite,

broadband wireless and paging networks. This should be an informative and well attended event, so make your reservations early! Also, keep in mind that only early reservations (by AITP Members or Students) qualify for the discounted luncheon price of \$10.

You may have also noticed we've begun to announce our luncheon meetings in the Honolulu Advertiser, Star Bulletin and in the Pacific Business news. We will also soon be announcing a membership drive which will include prizes for those who refer the most new members.

If you have any questions, concerns, suggestions or great ideas about how to improve our organization, please feel free to contact me and I will make sure that your ideas are considered. My email address is: brian@malanaphy.com

Computer Tip

Don't have one of those small vacuum cleaners to suck up dust bunnies and debris from your keyboard? No worry....use a post-it note instead. Fold it in half with the sticky side facing outward.

Run it along and between the row of keys - getting it underneath. You'll be amazed and possibly grossed out by what you'll find lurking there.

May Educational Meeting

Converging Wireless Technologies for the Enterprise

Honolulu Chapter of AITP

The Association of Information Technology Professionals

Guest Speaker:
Phillip Redman
Research VP, Gartner/G2

Wednesday May 19, 2004
Ala Moana Hotel
11:30 - 1:00 pm

Reservations Required/Cost includes lunch
Reservation Line: 591-3550
or send e-mail to: miles.tsuruoka@verizon.com

10 - Members/students with early reservations (by May 14)
\$20 - Members/students with late reservations
\$25 - Guests with reservations
\$25 - Walk-ins (members/students/guests on a space/meal-available basis)

Vegetarian meal requests require 2-day notice

No shows will be billed - Cancellations require a minimum 24-hour notice

1. How will the physical convergence of wired and wireless applications and technology occur in the enterprise?
2. How will the logical convergence of wired and wireless applications occur in the enterprise?
3. What are the benefits to the convergence of technologies in the enterprise?
4. When will the convergence of technologies in the enterprise occur?

Phillip Redman is a research vice president in Gartner Research, where he is in the systems and networks areas. His research covers the wireless mobile communications industry focusing on mobile communications services and products for cellular/PCS, mobile satellite, broadband wireless and paging networks.

Prior to joining Gartner, Mr. Redman worked at the Boston-based Yankee Group, where he was the associate director of the wireless/mobile communications practice.

Upcoming Events*

May 5	AITP BOD Meeting	Jun 2	AITP BOD Meeting
May 19	AITP Meeting	Jun 16	AITP Meeting - TBA

**To be listed here, please send the name of the event, date, and description to the editor. The deadline is the 25th of each month. They will be published here on a space-available, first come, first serve basis.
